WHAT WE NEED FROM YOUR CLIENT

DURING CISLO VIDEOCHAT CLOSING

If you choose to close using the **Cislo videochat** closing there are a few things needed in order to complete the process.

You will need a **computer** with a strong internet connection, a **camera** and a **microphone**, and a **government issued ID**. You should feel comfortable with your ability to resolve any computer issues that may occur during the closing.

THE PROCESS

The paperwork will be sent to appropriate parties beforehand (either via mail, overnight mail or porch drop off).

All parties will join the virtual meeting at an agreed time.

Identity will be securely verified and all required paperwork will be signed and visually observed.

The meeting will be videotaped as proof of the completed process.

Cislo Title will provide direction regarding returning of the signed documents.

Our team has been preparing for the use of paper video chat notarization in Michigan and is ready to help you through this virtual closing process to complete any real estate transaction.

If this sounds like an option you're interested in, call our team today and we will walk you through the process.
