# CISLO VIDEOCHAT CLOSING

Due to the pandemic, we are not traditionally meeting in an office to complete closings. In order to comply with stay safe and stay home orders, we now offer **sign and drive closings** as well as **Cislo videochat closings**. It is our mission to keep our teammates and clients safe through the executive order signed by the governor.

## WHAT IS A CISLO VIDEOCHAT CLOSING?

A virtual closing that will allow your clients to sign in the safety of their own home while incorporating traditional notary authentication steps.

With safety first in mind, **Cislo Title** will deliver paper documents via email, overnight mail, or porch drop off if needed.

The best part? You are virtually invited to this closing as well.

Our team has been preparing for the use of video chat notarization in Michigan and is ready to help you through this virtual closing process to complete any real estate transaction.

**Reach out to any of our Cislo Title offices to find out if this option is for you!**
